COPPER STOCK IN EVIDENCE PRODUCERS UNDER PRESSURE TO POSTPONE CUT IN PRICES OF METAL.

NEW YORK, September 16.—The speculative element in the stock market today was in two minds still about the proper action to take in reply to reports of the chances of the future. A somewhat calmer view was held, especially in the early part of the day, of the copper situation, principally on the ground that conditions there might be expected to improve as a barometer of more general conditions. The special feature in the copper situation that commanded most attention was the pressure of the producers had been under to postpone a cut in prices to enable manufacturers to work off stocks purchased at higher levels, with contracts for finished products made on that basis. The maintenance of this price level is given part responsibility for the diminished demand for products which has paralyzed the copper market, and leaves a hope even that demand will revive when prices are readjusted to the new level of activity through the finished branches of the trade. A further reduction in the price of metal, both in London and at the local metal exchange, overtook most of this better feeling. The United States Steel stocks were under pressure again in sympathy with the copper, the preferred falling to below 90. Some consideration was given to the resumption to occur this week of the hearing in the government suit against the Standard Oil Company and of the expected decision of the immunity question for the Chicago and Alton Railroad stocks were free from depression by comparison with the weakness in the industrial list, and showed periods of strength; but the advantage was without influence for any length of time. Incidents of the day were pronounced breaks in cotton and corn, representing the formation of more hopeful opinion over the dimensions of those crops. Fears of reduction of dividends by the copper companies made the subject for a large part of the day's discussion. Total sales, par value, \$1,198,000. United States bonds were unchanged on call. Total sales stocks to-day, 660,200 shares.

COTTON MARKETS.

NEW YORK, September 16.—There was a sensational decline in the cotton market to-day, accompanied by great activity and considerable excitement. Prices sold at the lowest levels since the advance on the crop news early last June. October sold through 1 1/2. And the market closed only a few points up from the lowest, although steady at a net decline of 4 3/8 per cent. Sales were estimated at 600,000 bales. Market opened weak at a decline of 10 3/4 points in response to lower cables and the decline reported in New Orleans as a result of hedge selling. The local close on Saturday. Stop orders were caught on the decline, and after their execution the market rallied 6 or 7 points on covering, but quickly weakened after the renewal of October, and during the middle of the morning sold 29 1/2 points net lower. This was followed by a rally of about 10 points on covering and some buying for a reaction on the forecast for unsettled weather in the eastern belt, but the market broke again toward the close under renewal of heavy liquidation and bear pressure. October sold at 29 1/2 or 55 points net lower. The close was a little up from the lowest covering. Southern spot markets reported early were unchanged to quarter lower. Receipts for the week ending Sept. 15 were 52,113 bales against 44,942 last week and 31,068 last year. For the week 140,000 bales against 99,150 last week and 186,956 last year. Today's receipts were 52,113 bales, 1,692 bales against 4,221 last year, and at Houston 2,783 bales against 10,390 last year.
